

## FARINA & SONS, INC.

**Q: What is your most requested remodel?**

**A:** For the last couple of years the most requested remodel has been the enlargement of the kitchen into the family room to create more of a great room feel. My clients' entertaining needs concentrate on this area of the home, so it is very important to them. That great-room feel can be achieved by either adding square footage to the home or re-planning the existing square footage to come up with this entertaining area.

**Q: How do you stay true to an older home's age and character?**

**A:** For Farina & Sons, Inc., maintaining the character and finishes of the older homes is an absolute must. The goal is to present the client with a home that has all the upgraded services and energy efficiencies that are available today, but that also contains finishes that have not deviated from the home's original character.

**Q: What do you believe is one of the most important parts of a quality remodel, whether doing an interior or exterior remodel?**

**A:** The most critical part of all renovations is to be absolutely seamless so you can not tell from the starting to ending points.

This concept has to be the goal for the exterior elevations, textures and details as well as for the interior on such items as the new interior floor plan to flow with existing spaces and compliment or match the existing finishes.
